TRI BLEND TEES

DESCRIPTION

The name “tri-blend” means the blend of the shirt is made of three different fabrics. While a regular t-shirt is 100% cotton, tri-blend tees are 50% polyester, 25% cotton, and 25% Rayon which makes them softer. Kinda like a fancy t-shirt that runs a little bit smaller and have more stretch to them. They look a little bit different too, having a bit of a “dappled” look to them, whereas the fabric of regular t-shirts are solid color. This tri-blend fabric is super-soft and doesn’t keep heat trapped between the fabric and your skin, making tri-blend t-shirts ideal for an active day at the gym or an inactive day lounging around the house. Athletes everywhere are using tri-blend t-shirts because of their outstanding ability to stay cool while remaining active, so why not join the club no matter what the activity
